

# Saint James Academy

## Acceptable Use Policy

Student conduct in relation to the use of computers and the Internet must be in support of the educational goals of Saint James Academy. All rules of conduct and discipline policies described in the school handbook apply.

Inappropriate use of computers includes any activity involving pornography, unethical or illegal solicitation, racism, sexism, inappropriate language, bullying, transmission of copyrighted, threatening or obscene material, commercial solicitation, advertising, identity theft or political lobbying. It also includes copying without proper citation of source (plagiarism), songlifting or any other form of piracy.

Inappropriate use includes, the unauthorized changing of hardware, software settings, downloading, adding, deleting or moving files, folders or icons and the purposeful infection with a virus or spy ware.

Use of the computer is restricted to only those programs and websites authorized by the instructor.

The principal will ultimately decide what is appropriate use and her decision is final. The principal will apply consequences as described in the student handbook any time deemed necessary.

I have read and understand the above policy.
